

Community Newsletter #2

Sunny Corner Wind Farm Community
Update – 20 December 2024

Hello,

We're reaching out with exciting updates about the proposed Sunny Corner Wind Farm and opportunities for you to get involved.

Community Benefits Survey

Mainstream Renewable Power and Someva, the companies jointly awarded a permit to investigate a wind farm at Sunny Corner State Forest, are encouraging local residents to contribute to shape the development of a Community Benefits Program for the proposed Sunny Corner Wind Farm and follows an initial community survey in August.

The Community Benefits Program will include a range of elements such as:

- Annual tailored Community Benefit Funds
- Direct Neighbour Benefits
- Support for First Nations groups
- Partnerships with local councils.

It aims to ensure the project supports the prosperity of the region through grants and sponsorships, energy efficiency upgrades, enhanced community services, local job creation and improved bushfire response capabilities.

We'd love to hear from you. The survey, which takes approximately five minutes to complete, can be accessed online at

www.surveymonkey.com/r/SunnyCornerBenefits.

Further details are here: [Locals encouraged to participate in Community Benefits survey - Someva](#)

In 2025, we'll let you know what we've heard from both surveys as we use these results to shape our community benefits programs.

We are also hiring a Local Project Coordinator

We're looking for someone to support the Sunny Corner Wind Farm team with local community outreach and engagement for the investigation phase of the proposed Sunny Corner Wind Farm near Bathurst, NSW.

Further details are here: [We are hiring a Local Project Coordinator - Someva](#)

The job description is here: [SCWF-Local-Project-Coordinator-Job-Description-Dec24.pdf](#)

If this sounds like an opportunity for you – we'd love to hear from you.

We wish you all a safe and happy festive season and we look forward to working with you in 2025.

Kind regards,
Felicity
